

## **ENGLISH:**

Dear Parent or Guardian,

This fall, your school and the Weber-Morgan Health Department are partnering to provide their annual Flu Immunization Clinic. In addition to Flu vaccine WMHD will be offering **Tdap, Meningococcal and HPV immunizations for 6th grade, junior high and high school students.** These vaccines are recommended prior to 7th grade entry and additional doses of Meningococcal and HPV vaccines are needed to complete the full series. Weber-Morgan Health Department nurses will be offering immunizations to all students and school faculty. Family members are also welcome to attend and receive vaccinations at the same time. We hope this will provide any easy opportunity for students, faculty and families to receive their flu vaccine.

Please see the attached calendar for dates and times of each school clinic. Use this secure link to fill out and submit the consent form.

**Online Flu Consent Link: <https://survey.alchemer.com/s3/7939176/WMHD-2024-25-School-Flu-Clinics-Online-Registration-Form>**

Once completed you will receive a confirmation email and the consent form will be securely sent to our staff to print. **Forms completed through the survey link will need to be submitted at least 1 school day prior to the clinic. We will not be able to provide a vaccine without a completed consent form.** We will also have flu forms available during the flu clinic that you can fill out at that time.

If you have any questions about the Flu Immunization Clinic, you can reach out to Lyndsey, Immunization Program Manager with Weber-Morgan Health Department at (801)399-7239 or [lwinger@webercountyutah.gov](mailto:lwinger@webercountyutah.gov).

## **SPANISH:**

Estimado Padre o Guardianes,

Este otoño, su escuela y el Departamento de Salud de Weber-Morgan se asociarán para ofrecer una clínica de vacunación contra la gripe. Además de la vacuna contra la gripe, WMHD ofrecerá vacunas Tdap, Meningocócica y el VPH a los alumnos de sexto grado, secundaria y preparatoria. Estas vacunas se recomiendan antes del ingreso a séptimo grado y se necesitan dosis adicionales de vacunas contra el meningococo y el VPH para completar la serie. Las enfermeras del Departamento de Salud de Weber-Morgan ofrecerán vacunas a todos los estudiantes y profesores de la escuela. Los familiares de los estudiantes también pueden recibir las vacunas al mismo tiempo. Esperamos que esto sea una oportunidad fácil para que los estudiantes, profesores y familias pueden recibir la vacuna contra la gripe.

Consulte el calendario adjunto para conocer las fechas y horarios de cada clínica escolar. O utilice este enlace seguro para completar y enviar el formulario de consentimiento.

*Enlace de consentimiento de gripe en línea: <https://survey.alchemer.com/s3/7939176/WMHD-2024-25-School-Flu-Clinics-Online-Registration-Form>*

Una vez completado, recibirá un correo electrónico de confirmación y el formulario de consentimiento se enviará de forma segura a nuestro personal para que lo imprima. Los formularios completados a través del enlace de la encuesta deberán enviarse al menos 1 día escolar antes de la clínica. *No podremos proporcionar una vacuna sin un formulario de consentimiento completo. También tendremos formularios sobre la gripe disponibles durante la clínica sobre la gripe que podrá completar en ese momento.*

*Si tiene alguna pregunta sobre la Clínica de Vacunación contra la Gripe, puede comunicarse con Lyndsey, Gerente del Programa de Vacunación del Departamento de*
